

CASE STUDY

VALUE PROPOSITION

- LPS® DETEX® Metal Detectable Scouring Pads were stronger than the competition. Each pad lasted through more cleanings and was less likely to break apart and present a risk for foreign matter contamination of the processed food.
- LPS® DETEX® innovative technology helps to reduce the risk of foreign object contamination during food processing. This minimizes the risk of recall and associated scrap cost and reputational damage associated with it.
- Estimated savings of over >\$10K in pad replacement costs and reduced downtime

PRODUCT

LPS® DETEX® Metal Detectable Scouring Pad

BOTTOM LINE

Safety Improvement and Reduced Downtime
Food Production: Frozen Pizza

APPLICATION

- Scouring pads were used in a large-scale frozen pizza production plant to clean and maintain production equipment (ovens, pans, etc.)

ISSUE

- Heavy use of the competitor's pad resulted in pad destruction and loss of pad pieces, which ended up in the production line, increasing the risk of foreign object contamination and resulting in production stoppages for cleaning and removal of pad pieces

SOLUTION

- LPS® DETEX® Metal Detectable Scouring Pads

RESULT

- LPS® DETEX® Metal Detectable Scouring Pads were trialed and found to be stronger, withstanding the rigors of the cleaning process with less tearage and pad piece loss
- 3 varieties of competitor scrubbing pads were replaced by LPS® DETEX® Metal Detectable Scouring Pads, saving over \$10,000 in product replacement cost and reduced downtime
- Highly visible blue color and metal detectable fibers reduced the risk of foreign matter contamination of processed food

PACKAGING DETAILS

LPS #	Pad Size	Units/Case	Approximate Case Weight	Pallet	Shelf life
59660	5.9 x 8.9 in	60	19 lbs	96 cases	10 Years
