

do-it ALL™

Brand Foaming Germicidal Cleaner

FEATURES

- Proven to clean, disinfect, and deodorize most hard, non-porous surfaces in one step
- Foam clings to vertical surfaces permitting longer contact time
- EPA registered
- Controls mold, mildew, and the odors they cause

APPLICATIONS

- Glazed Tile
- Walls
- Fixtures
- Shower Stalls
- Sinks
- Bathtubs
- Hampers
- Glazed Porcelain
- Stainless Steel
- Sink tops
- Telephones
- Bathrooms
- Cabinets
- Bed Springs
- Tables
- Chairs
- Vinyl
- Finished Woodwork

PROPERTIES

Appearance / Physical State	Aerosol/foam
Odor	Citrus
Melting / Freezing Point	N/A
Boiling Point / Range	212°F
Vapor Pressure	Not determined
Partition Coefficient	Not determined
Flammability	N/A
Propellant	Propane/Isobutane blend
Color	Colorless
VOC Content	7.9%
Flash Point	N/A
Density	Not determined
Evaporation Rate	N/A
Vapor density	> 1
Auto-Ignition Temperature	Product is not self-igniting
Water Solubility	Fully Miscible
Specific Gravity	1.000

AVAILABLE PRODUCTS

Part No.	Net Contents	Container Type	Units/Case	Approximate Case Weight
08020	18 oz / 510 g	aerosol	12	18 lbs

do-it ALL™

Brand Foaming Germicidal Cleaner

DIRECTIONS

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **DISINFECTION, DEODORIZATION AND CLEANING:** This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection. Surfaces which come into contact with food must be rinsed with potable water after disinfection. Do not use this product to disinfect appliances, refrigerator interiors, microwave oven interiors. Do not use this product to disinfect or clean dishes, glassware or eating utensils. To disinfect [,clean, deodorize] hard non-porous surfaces (such as glazed bathroom tiles, walls, fixtures, shower stalls, sinks, bathtubs, hampers, tables, chairs, HVAC catchpans and air conditioning evaporator coils), proceed as indicated below: (1) Shake can before using. (2) Hold six to eight inches from surface to be treated. (3) Spray area until it is covered with a white foam. Allow foam to penetrate and remain wet for 10 minutes. No scrubbing necessary. (4) Wipe off with a clean cloth, mop or sponge. This product will not leave grit or soap scum. For heavily soiled areas, remove gross soil before treatment. **MILDEWSTAT:** To control mold and mildew on pre-cleaned, hard, non-porous surfaces (such as floors, walls, table tops) spray surfaces to be treated, making sure to wet completely. Let air dry. Repeat application at weekly intervals or when mildew growth reappears. ***KILLS HIV-1 (AIDS VIRUS) ON PRECLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS** in healthcare settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1 (HIV-1) (associated with AIDS). **SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 (AIDS VIRUS) OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.** Personal Protection: Disposable latex or vinyl gloves, gowns, face masks, and eye coverings must be worn during all cleaning of body fluids, blood and decontamination procedures. Cleaning procedures: Blood and body fluids must be thoroughly cleaned from surfaces and objects before application of disinfectant. Contact Time: Effective against HIV-1 (AIDS virus) on hard non-porous surfaces in the presence of a moderate amount of organic soil (5% blood serum) providing 1800 ppm of active quaternary water for a contact time of 10 minutes at room temperature (20-25°C). Use a ten (10) minute contact time for disinfection against all other bacteria and fungi claimed (listed on labeling). Disposal of Infectious Materials: Blood and other body fluids should be autoclaved and disposed of according to federal, state, and local regulations for infectious waste disposal.

HANDLING

PRECAUTIONS: HAZARDS TO HUMANS & DOMESTIC ANIMALS CAUTION: Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Harmful if swallowed or absorbed through skin. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco.

FIRST AID: If swallowed: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

DISPOSAL

Do not puncture or incinerate! If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.
